Introduction

The National Committee for Traffic Safety was established at the Ministry of Interior under Article (101) of Traffic Law No. (19) of 2007 CE and approved by His Highness the Deputy Emir and Crown Prince on the twenty-second of July 2010 CE on Cabinet Resolution No. (33) of 2010 regarding its formation, which is chaired by His Excellency the Prime Minister and Minister of Interior. The committee is concerned with drawing the general traffic policy and developing plans, means and methods that develop traffic work in the country in all its technical, educational, organizational, legislative and medical aspects, in cooperation with public and private national institutions. In the interest of the National Traffic Safety Committee to popularize and develop traffic safety education in schools in the State of Qatar; This award - the National Award in Traffic Safety Education - comes to reinforce the initiatives undertaken by the committee in the field of spreading the culture of traffic awareness among all groups of society in general and the student group in particular, and as an extension to encourage social responsibility among private sector institutions in the country, through the effective partnership program between the sector. This guide serves as a guide for everyone to participate in this national award, and we hope that public and private schools and all groups of society participate and cooperate to achieve the objectives of the award, and to achieve its desired goals, by adopting and implementing projects that have a tangible and sustainable impact on behavior. Students and their practices, through the school's work as an integrated unit with all its components including students, teachers, administrators and workers, and in cooperation with various governmental, private and civil society institutions, in order to highlight the students' participation and their roles in a clear and clear way that reflects the correct traffic practices of the student and society.

The award's vision: promoting positive traffic practices among students and modifying negative traffic practices in order to prepare a traffic-conscious generation.

The award's message: contributing to spreading a culture of comprehensive traffic awareness among members of the school community and the local community in the country.

The guidebook for the: National Award in Teaching Traffic Safety 2021-2022 First Cycle
